

Jessica Smith
Old School Notebook: Data Summary
Stat 419
12/6/2020

How many pages of content are written?

My notebook contains 34 pages of content, where a "page" is defined as one side of a sheet.

How many unique dates are represented?

Notes were taken on 19 distinct days, for an average of 1.26 entries per week.

How many quotes?

There are 7 quotes in the notebook taken from the prompts in the course videos.

The quotes are from:

- Unknown
- Penn & Teller
- MLK, Jr
- Lucy (IMDB, 2014)
- Larry the Cable Guy
- Stephen R. Covey
- Oliver Wendell Holmes Jr.

*It would be great to know who authored the "There are ten types of people . . ." quote, as I don't think anyone ever got the easter egg.

The notebook also contains several quotes jotted down from the course videos, for example, ". . .between 3 and 4 persons, not 3.14 people per house . . .", etc.

How many reflection paragraph questions?

There are 7 reflection paragraph questions.

How many quick notes have you written?

The notebook contains 4 types of notes: structured/prompted content, notes from course videos, thoughts/ideas on assignments, and more detailed notes from the required readings.

There are 8 pages of prompted content including quotes and reflections.

The remaining 26 pages are filled with the other 3 types of notes on the course content.

The file "oldSchoolNotebook.wmv" is available as a "show and tell" walkthrough of the notebook.
